ENCHANTED ENGINEERING
FAIRY TALES AND STEM

Planning Your Lessons with "Once Upon a Time"

Get Caught Engineering®

Wendy Goldfein and Cheryl Nelson

Name of Fairy Tale:

_____

_____

What was the problem in the story?_____

_____

_____

How did the character solve the problem?_____

_____

_____

Was a tool used in the solution? _____

_____

_____

Can the students recreate the tool? _____

_____

_____

Improve upon it?_____

_____

_____

What tool, product, or technology would have helped the character if only it had been available?
For Example -create a boat for the gingerbread man to cross the river.

_____

_____

_____

What are some things that the characters might need at the conclusion of the story?

_____

_____

_____

_____

Ideas
- Someplace to live or a better built house or castle
- Replacing things destroyed in the story (chairs, bridges)
- Based on what they learned in their story, a tool they would use in the future

Ready for More Ideas?

We have several literature integration ideas on our website's blogs. We have STEM activities combined with not only fairy tales but also chapter books, classic literature, picture books, and nursery rhymes.

- **We have a free downloadable fairy tale STEM lesson on our website site**
- We also have a **newsletter** that provides another **free fairy tale lesson** when you sign up!

- **Explore our resources and ideas at**:
